MINING, BUSINESS AND STOCKS.

M'DONALD STRONG FOR ELY COUNTRY

To Great Year for Properties There.

Among the substantial men who have stood behind the camp of Ely for many years and is now watching it come to its own, is D. C. McDonald, ploneer and at present mayor of the city of Ely. He left last night for the camp after

He left last night for the camp after spending several days here looking after business affairs connected with the various companies he is connected with. Mr. McDonald is closely associated with Thomas Kearns and David Keith in the Success mines in the Duck Creek district and with Keith, Kearns and Col. E. A. Wall in the McDonald Ely mine close to the city of Ely.

Mr. McDonald left last night so as to be present at a meeting of the city council tonight at which a franchise will probably be granted the Tonopah & Tidewater company, better known as the proposed Ely-Goldfield company. This, it is declared, will give the camp a direct avenue through to Los Angeles, Some very desirable property in the Ely district is held by Mr. McDonald and associates. For years he has continued to keep up the work on many of them and he probably owns in the neighborhood of a score of claims mostly patented.

The Success mines in Duck Creek, for the amount of work done, are among

ly patented.

The Success mines in Duck Creek, for the amount of work done, are among the richest in the country. Something over 3,000 feet of work has been done at the property and there is enough ore in sight for steady shipments for some time to come. Development work is being pushed throughout the winter although no shipping is being carried on.

on.

Mr. McDonald declares that the next year will see greater things transpire in the camp than ever before. Development work will be pushed with greater vigor and the many who are now becoming interested will shortly begin to assist in a more rapid upbuilding of the camp. There is considerable talk of an electric line connecting the small towns along the valley from the Steptoe smelter to the Robinson district a distance of 24 miles.

TRADING IS BRISKER.

Business on Local Stock Exchange Slightly Heavier.

re was no holiday lull on the loca

There was no fioliday lull on the local exchange this morning and trading was somewhat heavier. Most of the stocks were stronger and there was more spirit in the buying and selling than has been seen in some days. Throughout the entire session this morning trading was lively.

Colorado moved up from 70 cents at the opening and closed strong at 73 and 74 cents. The number of shares sold was larger than usual. Columbus Consolidated was not as strong as it has been although it found a ready market. Iron Blossom was in the same class with Colorado this morning and it registered a slight gain. Lower Mammoth was another stock that started moving up this morning and it sold as high as 55 cents.

The total number of shares disposed of this morning was 36,100, while the amount represented by the transactions was \$16,661.

On the curb market there was considerable interest. Ulntah Treasure Hill was disposed of in a 200 share lot, at 8 cents. Opex Consolidated was stronger today and 3,000 shares sold at 30 cents. A block of 1,000 shares of Federal Ely sold at 13 cents.

PROVO MINE MAKES ANOTHER STRIKE

Big Body of Ore Opened Up on 300 Level of Property in East Tintic District.

(Special to The News.) Eureka, Dec. 22.—Another strike has been made at the Provo mine in the east Tintic district that promises to be of greater importance than anything here-tofore made there. The strike was

Tintic district that promises to be of greater importance than anything here tofore made there. The strike was made several days ago and the men employed at the mine have been quietly working away upon the ore body that is now opening out into an excellent grade shipping product.

The strike was made on the 300 foot level and to the north of the shaft. A person who has just returned from the strike declares that the drift is now in a full face of ore. The face is seven feet high and appears to be going up and down. As near as can be described it is wedge shaped and the drift has passed through the narrow edge. The ore is identical with that being shipped at the East Tintic Development, but is believed to carry some higher values in sliver.

The same ore body is believed to have been opened up in the drift on the 160 foot level and a winze has been started down on the ore from that level to more fully ascertain the extent of the ore body.

Superintendent Del Roberts declares that he will be stopping ore by next Monday. It is probable that it will not be more than a week from that date when another shipper from the district will be added to the list.

The latest strike is a little south of the center of the Provo property and therefore promises a large body of ore within its own ground.

It is now certain that the leasers of the property will more than take out the money they have put in. Eight months ago Del Roberts, Ralph M. Kellogg, C. E. Huish and a number of others secured a lease on the property. They have spent considerable money in thoroughly equipping the property and in development work.

On Sec. 18, the lease had two months more to run and an extension of six months was secured, to continue at the expiration of the present lease. This gives the present leasers eight months from last Saturday in which to push the work.

The leasing company is a close corporation and none of the stock is on the ecompany owning the property.

INCREASES COPPER OUTPUT.

United States Leads in Production of Red Metal.

Red Metal.

Washington, Dec. 22.—An increase of 36,000 metric tons (2,2043-5 pounds each) in the world's production of copper for 1908, was almost entirely due to the output of the United States and the total production throughout the world for the year amounted to 739,000 tons, the highest known for any one year, according to an authoritative German estimate from the American consular representative at Frankfort, The United States produced 421,900 tons.

The world's consumption of this metal in 1908 amounted to 701,700 tons of which 68.3 per cent fell to Europe and 30 per cent to the United States, Germany stood first among European consumers with 180,700 tons and England second with 128,900 tons.

RAILROAD NEWS.

MORE ROLLING STOCK.

International Smelter Adds New Gaso

Mechanics are now fitting up a new gasoline passenger car for the benefit of the patrons of the Tooele Valley railroad, which belongs to the International Smelting & Refining company. The car passed through Salt Lake Monday night and is now at Tooele, being put in shape for service.

It is a No. 24, Fairbanks Morse gasoline motor car, capable of carrying 35 passengers. It is 30 feet, 2 inches over all and has a 50 horse power, four cylinder engine. The machine weighs 24,000 pounds and is capable of going 25 miles an hour. The car has its own heating system, water system and gas lighting. It is divided into two compartments, one for the engineer and baggage department, and the other for the passengers.

the passengers.

This new piece of rolling stock will be used to meet the trains at the Too-ele station on the Salt Lake Route and carry them to Tooele City and the smelter.

PIPES AND TANKS FREEZE. Mercur Properties Have Trouble With Cold Weather.

Cold Weather.

On account of the extreme cold weather of the past week the mines at Mercur have been having a great deal of trouble in keeping their pipes, ore and tanks from freezing. For a while it was almost impossible to keep the plant moving. In spite of the efforts of the force at the Consolidated Mercur several of the pipes froze, but were loosened up before any damage to speak of could be done. The tanks were another object of trouble and it took a great deal of effort to keep them from freezing.

At the Boston Sunshine there was also considerable trouble. In some places fires had to be kindled to keep things moving and much of the work was closed down.

General Manager George H. Dern of the Consolidated Mercur declares that the weather has been the coldest ever witnessed at Mercur.

AUSTRIAN SHOOTS WIFE.

Sheriff's Deputy Pursuing Man, Who Is Fleeing in Mountains,

(Special to The News.) Bingham, Dec. 22.—Fleeing through the nountains above this camp, John Merich, an Austrian, is trying to escape from Deputy Sheriff Forbes. Merich shot from Deputy Sheriff Forbes. Merich shot his wife for an undiscovered cause at their home in the camp this afternoon, leaving at once in great haste, making his route over the hills. Mrs. Merich is not dead, but the chances are said to be slight for her recovery. At 3 o'clock Deputy Forbes had sighted his man in an open stretch of country. The officer is mounted and will likely overtake the man before he reaches the hills. If Merich reaches the hills his chances for escape are good, though it is expected that he will be overtaken before he reaches a hiding place. The man is known to be armed and Forbes is traveling with drawn weapons, anticipating a struggle before the man is taken. It is not known what motive Merich had for his act, as his wife is in too precarious a condition to talk.

Day and Sunday School teachers and friends, we have a quantity price for you. Just the thing for the manufac-ture of little remembrances at home. DESERET NEWS BOOK STORE,

BIG RUN ON POWER.

The Utah Light & Railway company is experiencing the heaviest draft on its power in its history. The stores are now open during the evening, keeping shoppers on the streets at night shoppers on the streets at night, while more windows are being elaborately illuminated than ever before, and the street car service has had to be increased. Special arrangement has been made for extra power with the Telluride Power company, and the big motor generator recently installed is regularly now at work pulling loads up to 2,000-horsepower.

GREEK ROBBED BY NEGROES.

M. Tsiconkes, a Greek, was held up by two negroes and robbed of \$45, at the corner of Third West and Second south streets, at 9 o'clock, Tuesday night. The negroes told the Greek, as they left him, that if he gave an alarm they would kill him, but after they had disappeared he quickly gathered a large crowd of his countrymen in that district and searched for the hold-ups, but no trace could be found of them. The police were notified, but did not capture the robbers.

ROOSEVELT'S BUSY DAY.

Kampala, Uganda, Dec. 22.—Col. Roosevelt and Kermit were out early today hunting the sitatunga, a rare species of antelope.

GAINS AND LOSSES ABOUT THE SAME

the stock market today did not vary much from yesterday's closing figures. much from yesterday's closing ngures, the widest change in the active stocks reaching a gain of ½ point in Read-ing. Other changes were about evenly divided between gains and losses. Rock Island preferred rose 1½ and Interna-tional Harvester I.

Island preferred rose 1½ and International Harvester I.

Business increased largely in volume but the purchasing orders were mostly in stocks which have shown recent decided strength, such as Rock Island preferred and Consolidated Gas. A handful of other specialties also became strong but the general run of stocks was neglected. This condition encouraged bear selling of the railroad stocks later, Union Pacific going down nearly a point and the whole list falling back. Consolidated Gas lost most of its 2-point rise and Rock Island preferred receded 1½ after going up 2¾. Pittsburg Coal preferred rose 1¾. American Smelting 1¾ and Amalgamated Copper and Virginia-Carolina Chemical I. American Can preferred lost 1½.

Prices suffered from inanition, the market being practically lifeless. General Electric declined 1 and Pacific Mail 1½. Pittsburg Coal rose 1.

Bonds were irregular.

When it was announced that the dividend had been raised on Pittsburg C. C. and St. Louis, it rose 2 points. Pennsylvania rose 1½ and Reading 1½. The rest of the market was completely at a standstill. Soo Line advanced 2. Minneapolis and St. Louis fell 1.

After the buying of the Pennsylvania stocks had quieted down the whole market relapsed into the recent state of idleness and fluctuations scarcely exceeded ½. Western Maryland certificates lost 2½ and Kansas City Southern 1. United Dry Goods rose 1 and Reading second preferred 1½.

The market closed heavy and dull. The coalers showed strength, Pennsylvania rising 1½, Delaware & Hudson 2½, Read-

The market closed heavy and dull. The coalers showed strength, Pennsylvania rising 1½, Delaware & Hudson 2½, Reading second preferred 5, and Lackawanna 1. Rock Island, American Cotton Oil and American Car preferred also gained 1, and International Pump 2½. Lake Erie and Western preferred declined 1¾ and Norfolk & Western preferred and lowa Central preferred 1. Prices were affected by realizing at the last.

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Dec. 22—Weak cables and prospects of a liberal increase of receipts in this country within the next week or two caused weakness in the wheat market today. Commission houses were free sellers and the market lacked any good support.

At the start prices were ½ to % @ % lower, with December at 1.15½ and May at 1.11½ to 1.11½. After touching 1.15%, December sold off to 1.15¼. May for a time held within the opening range. Corn prices continued their downward course owing to general selling based on continued cold weather in the corn belt. Initial quotations showed losses of ½ to % compared with the previous close, May being at 65% to 66. Later May sold at 65%.

Weakness of wheat and corn had a depressing effect on the oats market, sentiment in the pit being bearish early in the day. May opened ¼ lower at 45% and later touched 45½. Liberal receipts of live hogs and a slackened demand for the cash products prompted considerable selling of provisions early in the session which resulted in decided weakness. Prices at the opening were 5 to 75 lower.

session when resulted in decided weakness. Prices at the opening were 5 to 7½ lower.

Wheat—The market became weaker as trading proceeded. December sold off to 1.14% and May to 1.10. The close was weak with December 1¼ lower at 1.14%. May was down 1½ 0% at 110½.

Corn—The low point for May was reached at 65%. The market was heavy all day and closed weak with May % 0½ lower at 65%.

Close—Wheat—Dec., 1.14%; May, 1.10@ %; July, 1.01; Sept. 97%.

TRAINER JOYNER SAILS.

New York, Dec. 22-A. J. Joyner, the rainer, was a passenger today on the trainer, was a passenger today on the Mauretania, salling for England. He expects to reach Newmarket in ample time to take up the training of Harry Payne Whitney's horses before the closing of the Lincoln handicap stakes and other important stakes in January. When in this country, the trainer made a trip to the Whitney training quarters in the south and inspected the thoroughbreds there.

TRICK SKATERS HERE

Green and Kimball, the team of trick and fancy roller skaters, who have been engaged by the Auditorium management for three evening performances and a Saturday matinee at the Richards street rink, have arrived from the coast where they filled an engagement of several weeks. It is said they perform more than half a hundred tricks. During holiday week there will be a matinee every day and the usual evening sessions. Sunday excepted. The race between Joe Forest of Idaho and Willie Schatz, Utah's champion, will probably take place next week.
